

Aboriginal Health Worker Seminar: Burn Prevention, Emergency Management & Rehabilitation

DID YOU KNOW?

Aboriginal and Torres Strait Islander people are 3 times more likely to be admitted into hospital with a severe burn injury than their non-Aboriginal neighbours.

To address these alarming statistics, Australian and New Zealand Burns Association burn professionals have developed a days training in **Burn Prevention, Emergency Management & Rehabilitation** specifically for Aboriginal Health Workers and for those who work in Aboriginal Health across Australia.

The following topics will be presented by Medical, Nursing, Allied and Aboriginal Health speakers:

- **Burn Prevention**
- **Burn First aid and Emergency Management**
- **Fluid Management and ANZBA Referral Criteria**
- **Burn Rehabilitation**
- **Dressing and Wound Management**
- **Using Digital Photography in Burn Referral and Care**
- **Psychosocial Impacts of a Burn Injury on the Patient and Community**
- **Future Directions in Burn Accredited Training**
